SUMMARY

Computer Science undergraduate and Full-Stack Web Developer with hands-on experience in building scalable web and mobile applications using React, Node.js, and modern databases. Proven ability to develop real-time systems, RESTful APIs, and AI-integrated platforms, seeking entry-level roles in Software Development or Full-Stack Engineering within a global organization.

EDUCATION

Institute of Engineering & Technology (IET)
Dr Bhimrao Ambedkar University, Agra (2022 - 2026)
B.E - Computer Science and Engineering.

EXPERIENCE

Web Developer (*Full-Stack Developer)*
AdSource IT Solutions | July 2025 – January 2026

- Developed and maintained client-facing web applications using React.js, Node.js, Express.js, and MongoDB.
- Built RESTful APIs and integrated backend services with frontend components.
- Improved UI responsiveness and reduced page load time by approximately 20% through performance optimization.
- Collaborated with designers and backend teams to deliver scalable and maintainable solutions

PROJECTS

Tez Maths (Math Trick Question) — *TypeScript, React-Native, Tailwind CSS, MongoDB*

- Developed a real-time multiplayer quiz application featuring **battle rooms, matchmaking, and live score synchronization** using event-driven architecture.
- Implemented **secure authentication, room lifecycle management, and real-time leaderboard tracking** to ensure consistent gameplay experience.
- Optimized state handling and network updates for smooth real-time performance and scalable multi-user interaction.

STUDY MANAGEMENT ECO-SYSTEM — *React Native, Next.js, TypeScript, Firebase, MongoDB*

- Built an education management system automating attendance, seat booking, and centralized administration.
- Developed admin dashboard and mobile app with role-based access and real-time data synchronization.

EvalAI – AI-Powered GitHub Project Evaluation Platform— *Next.js, TypeScript, Node.js, GitHub API, AI Integration*

- Developed an automated evaluation system to **analyze GitHub repositories**, assessing structure, technologies, and overall project quality.
- Implemented a **rule-based scoring engine with weighted evaluation metrics** to generate structured performance reports and improvement insights.
- Automated repository data extraction and processing using GitHub APIs, enabling consistent and scalable project analysis.

TECHNICALSKILLS

Languages	Python, JavaScript
Frontend	React.js, React Native, Next.js, HTML, CSS, Tailwind CSS
Backend & Database	Node.js, Express.js, REST APIs, MongoDB, MySQL, Firebase
Tools	Git, GitHub, Redux Toolkit, JWT, Vercel, Render, Netlify

CERTIFICATES

- **Udemy Certified JavaScript Programmer** (*June 2025*)
- **Udemy Certified Python OOPs** (November 2025)
- **Udemy Certified Numpy, Pandas & Python for Data Analyst** (November 2025)
- **Udemy Certified MySQL Database** (June 2025)
- **Participation in ICFCS** with **AI** (25-27th September 2025)
